

Product Safety Recall

Oliveri Water Filter Monitor Timer

Sold by plumbing, electrical, kitchen and bathroom and hardware suppliers and online between 22 June 2022 and 30 September 2022

PRODUCT: Oliveri-branded water filter monitor timer containing one button battery and supplied as a promotional item with the following Oliveri-branded water filter systems and replacement cartridge products:

1. Oliveri Inline Water Filtration System for Standard Water Use (Model No: FS5010)
2. Oliveri Inline Water Filtration System Replacement Cartridge for Standard Water Use (Model No: FR5910)
3. Oliveri 3 Way Water Filter System (Model: FS7005)
4. Oliveri Harshwater Inline Water Filter System (Model:FS5050)
5. Oliveri Gooseneck Tap Water Filter System (Model:FS7025)
6. Oliveri Squareneck Tap Water Filter System (Model:FS7075)
7. Oliveri Water Filter Replacement Cartridge (Model:FR5950)
8. Oliveri Water Filter Replacement Cartridge (Model:FR7905)

DEFECT: The timer does not comply with the [mandatory safety standard for products containing button/coin batteries](#).

The battery compartment is not adequately secured and the button battery in the product may be easily accessible and the product has not been tested against the standard.

HAZARD: If young children gain access to button batteries and ingest them, they are likely to suffer severe internal burn injuries, which can result in serious injury or death. Button batteries also pose a choking hazard to young children.

WHAT TO DO: Affected consumers should stop using the Timer immediately and safely dispose of it.

After disposal, consumers should notify Water Filters Australia, so that the safe disposal of the product can be monitored.

CONTACT DETAILS: For further information, please contact Water Filters Australia on 1300 785 355 or via email at sales@wfa.com.au or via the website at www.wfa.com.au/monitorrecall.
