### Swag Camper Trailers Pty Ltd — Gas cooktop connecting elbow

Connecting elbow for four-burner gas cooktops installed in Swag camper trailers.

The affected elbows are installed in camper trailers with a pull-out drawer cooktop.

Dates sold: 1 March 2022 – 30 June 2022

**Why the product is recalled:** The elbow may have extra weight put onto it as a result of the installation. If not supported, the fitting could crack, causing a gas leak.

**Hazard:** There is a risk of serious injury or death from fire or explosion if the elbow cracks and the leaking gas is ignited.

1. Stop using the cooktop and turn off the gas at the cylinder immediately.
2. Take a photograph of the gas cooktop connecting elbow and submit it to Swag via the [Support Portal on the website](#).
3. If the elbow is not properly supported, Swag will arrange for a licensed person to repair the unit.

For more information or assistance, consumers should contact Swag on 1800 792 422 or via [the Swag website](#).

Purchased from: Authorised Swag camper trailer dealers
