

Product Safety Recall

LG 86-inch Smart televisions and stands

Description: LG 86-inch Smart televisions and stands model numbers 86UQ9000PSD and 86NANO75SQA.

Defect: The TV stand may crack and tip-over if the stand is not properly installed using all 6 screws provided or if the screws are not properly tightened in accordance with installation instructions.

Hazard: If the TV stand cracks or becomes unstable, it poses a tip over hazard that can cause serious injury or death.

What to do: Consumers using the TV's supporting stand legs should immediately contact LG Electronics Australia on 1800 643 156 for assistance with self-inspecting the TV stand and diagnosing any installation issues.

LG Electronics Australia will provide a replacement TV stand to consumers (at no costs) if an installation issue is identified. Wall mounted TVs are not included in the recall and can continue to be used by consumers.

For further information: Contact LG Electronics Australia on 1800 643 156
