

# Product Safety Recall

## Electrical Safety Recall

Sitro Group Australia Pty Ltd Portable 12 volt direct current powered diesel heater for outdoor use

Brand - Gasmate

Model DH203

### Identification:

“Gasmate Portable Diesel Heater” and model “DH203” marked on the product. Sold between 1 November 2022 - 31 May 2023 in BCF, Snowys Outdoors and independent camping stores.

### Why the product is recalled:

This product has a standard appliance inlet which can be fitted with a standard 240 volt connector. There is potential for the 12 volt direct current heater to be connected to 240 volt alternating current mains supply.

### Hazard:

There is a risk of electric shock which can cause serious injury or death if the heater is connected to 240 volt alternating current mains supply.

### Action required:

1. Consumer should stop using the Diesel Heater immediately.
2. Contact Gasmate to arrange return and free repair of the diesel heater.  
Repair consists of replacing the inlet and supplying a replacement 12 volt direct current supply lead.

### For further information
